GEOGRAPHY /HISTORY

READING

Write letters to your friends and family that you can't see right now and post them. Tell them what you have been doing with your time.

Find or create comfiest spot in your house. Choose your favourite book and go read in it,

Write a list of things you are going to do after isolation – will you visit the park or go to your favourite restaurant.

Go on TTRS every day for one week, if you can't get onto it then choose a timetables and write them out.

Create a video with your family dancing to a song that you all enjoy – everyone must join in the fun!

Watch an episode of Blue Planet. Write facts which you learnt from the episode

Choose a line from a story. How many different voices can you use? Can you do a funny, squeaky or deep voice?

Write a recipe or a set of instructions of how to make a delicious, sweet treat.

Shape scavenger hunt
Ask someone in your house to hide different shaped objects for you to find. Complete a tally on which shapes you found.

Listen and learn the words to your favourite song. Can you perform this to your family?

Treasure hunt!
Hide an object in your house, create a map for someone to find it.

Read to someone over the phone or online over video chat.

Continue with your food diary. What different types of food are having? Put your meal into the different food groups.

Use your ruler to find as many objects that you can that have a length of 20cm

Choose a song to listen to, one that makes you really happy and wants to make you dance.

Look at photos of you and your family, talk about the different memories you have had. You could even put the pictures in order that they were taken.

Read a book for a minute. How far did you read? Can you do it a second time and beat it?

Design a character to go into a book – draw the character and write a description – What do they look like? Are they good or bad? What do they like to do?

Choose a number between 1-100. How many different ways can you represent it? You can draw or use fun objects in your house.

Use materials from the house to create your own instrument.

Create a timeline of your life from when you were a baby to now. You can use photos or you could draw yourself at stage of your life.

Ask a family member to read a book to you. Make predictions and ask questions as they read each page.

Write an adventure story about the character you have created. – Make it more fun and add yourself into the story too!

Go on a minibeast hunt in your garden and record what you find in a tally chart. Draw a pictogram and a block graph to represent your findings. What was the most common minibeast you found?

Use the instrument you have made to play along with your favourite song. Remember to keep in time with the beat.

Talk with your adults about what it was like when they were at school. Write down what was the same and what is different.

Ask your family to read part of your book to you, visualise (draw) what you think it would look like.

Write an adventure story about the character you have created. – Make it more fun and add yourself into the story too!

Make a pop-up shop in your house to sell food. Play shops and pay for the food by totalling the correct amount of coins. You can use real coins or create your own out of paper. **Challenge:** can you be the shop keeper and work out the correct change to give.

Use word on the computer to type up your delicious cake recipe that you wrote. Practice your typing skills, changing font, pasting photos and saving items.

Explore your local area on google maps you could use your phone for this. Use this to plot a route for your next walk as a family. Can you spot the different physical features on the map along the way? Field, pond, river, woods, hills, parks etc.
