

Friday 6<sup>th</sup> November 2020

Children in Need

Dear Families,

Whilst we cannot do many of the activities we would have previously provided for the children to experience we still want to have a day on **Friday 13<sup>th</sup> November 2020**, where the children celebrate Children in Need by being involved in a class based activity.

This year we will still be taking the theme of 'spots', but rather than asking the children to come dressed in spots, each class will be creating an artwork from spots.

Each small wooden spot is a symbol of freedom and is to commemorate families and communities who pulled together during the Covid-19 crisis and continue to do so. Each child will have their own wooden spot they will decorate it to mark something important to them. Once all the spots have been decorated the children will work as a class to create their own personal piece of artwork...watch out for these on the website and our Facebook page.

In addition to taking part in 'The Children in Need Art Spots Project' all children will receive a Pudsey Cookie. We will be raising funds for Children in Need through these two events and whilst we understand that times are difficult for all our families we would ask if you are able to donate 50p that would be fantastic and would go towards the many projects and good causes supported by Children In Need.

We are really looking forward to the Spots Project and to sharing our wonderful art installations with you.

Yours sincerely

Catherine Skinn  
Principal
